

Angel Cards

The front of each card has the following image.

*Angel
Quality*

*Meditate on the angel quality and allow its
significance to come into your consciousness,
bring healing and be something to aspire to.*

www.swedenborg.com.au

The purpose of the cards is to help people on the path to angelhood.

They are based on what Swedenborg experienced with his encounters with angels. You can use them in whatever way you are drawn to. One suggestion is to select a card and reflect on the quality and message, see if there is any immediate connection, come back to it as often as you wish during the day and see if there was any synchronistic connection at the end of the day. Another suggestion is to have them in a dish and for friends and family to occasionally select one and share what was selected. A leaflet providing suggestions on how to use the cards accompanies each set.

On the other side is the quality. Here are three examples.

Goodness

*When angels do good to someone, they also
share the good that is with them, their good
fortune and their bliss, all with the wish to
share and hold nothing back.*

Emanuel Swedenborg

Wisdom

*Even though angels have heavenly wisdom
they do not go above the heads of those they
are teaching but use simple ideas to explain
things, and take these towards higher ideas as
the instruction carries on.*

Emanuel Swedenborg

Usefulness

*Angels concentrate most of all in being
useful and doing what is good to others.
They are happiest when they are ministering
to people in the world and inspiring them
with what is good.*

Emanuel Swedenborg

The 36 angelic qualities are: Beauty, Blessedness, Comfort, Compassion, Creation, Discernment, Enlightenment, Forgiveness, Goodness, Growth, Guidance, Happiness, Harmony, Honesty, Humility, Innocence, Integrity, In the moment, Joy, Kindness, Light, Love, Obedience, Patience, Peace, Perception, Power, Protection, Respect, Sacrifice, Sincerity, Transformation, Trust, Understanding, Usefulness and Wisdom.
